

Unit 39, Maranoa Village

I hope you like this unit as much as our Mum did.

Mum was very happy here for seven years - lovely neighbours, great support, beautiful gardens and close to amenities.

Mum would walk daily to the shops to have a coffee and buy some groceries, chatting to the coffee shop owners and the other residents she would meet on her walk.

Mum loved her unit. She liked to look out from the lounge to see the activity and enjoyed the quietness back from the main road. The views of the city and sunsets from her front porch were gorgeous!

In her unit Mum installed a gallery hanging system on one wall so that she could hang her large artworks without damaging the walls. She organised a window blind to cut down the glare in the bathroom and kept her unit clean and tidy.

Mum used the library across the road, the Balwyn cinema, Maranoa botanic gardens and also attended Evergreen for exercise classes in a shuttle bus that picked her up at the front door!

Mum loved the community at Maranoa and would attend the weekly film in the Community room with a few of the residents. She looked forward to the occasional barbecues and lovely dinners that Peter and his wife would prepare for the residents on occasions.

Our Mum lived alone but was not lonely. Her neighbours looked out for her. Peter would assist with any issues, such as lifting heavy things and making sure everything was working well in her unit.

As her two daughters, we were always happy to visit Mum regularly and soon got to know Mum's lovely neighbours and other residents.

If you are considering moving to Unit 39 Maranoa Village we can thoroughly support your decision and hope that you will be as happy and content as our Mum was.

Kind regards,

Fiona and Sally-Anne
(Mum's daughters)
